No. 596.

MONDAY, SEPTEMBER 1, 1766.

TUESDAY laſt a Veſſel arrived at Marblehead, *in 47 Days from* Liſbon ; *which brought ſome* Engliſh *Prints to the 24th of* June ; *a Gentleman at* Salem, *who ſaw the Papers, kindly extracted and ſent us the following Articles from them, viz*

LONDON, June 6.

THIS Day his Majeſty went to the Houſe of Peers, and put an End to the Seſſion of Parliament, by a moſt gracious Speech from the Throne, after his giving the Royal Aſſent to a Number of Bills —among others were the following,

A Bill for eſtabliſhing Free Ports in the Iſlands of Dominica and Jamaica, and for laying certain Duties on Goods to defrey the Expences thereof.

A Bill for repealing certain Duties on Goods in the Colonies, and alſo on Eaſt India Goods exported from Great-Britain, and for granting other Duties in lieu thereof.

A Bill for indemnifying Perſons who have incurred Penalties by writing, printing, or ingroſſing on unſtamped Paper in the American Colonies contrary to an Act of the laſt Seſſion.

His Majeſty's SPEECH

to both Houſes of Parliament, on Friday the 6th *June*, 1766.

My Lords and Gentlemen,

IT is with the utmoſt Satisfaction that I have obſerved the Wiſdom and Moderation which have uniformly guided you through the many important Deliberations in which you have been engaged during the Courſe of this long and intereſting Seſſion of Parliament. I perſuade Myſelf that the moſt ſalutary Effects muſt be the natural Reſult of Deliberations conducted upon ſuch Principles.

Gentlemen of the Houſe of Commons,

I thank you for the Supplies which you have ſo chearfully given for the ſeveral Eſtabliſhments and for the Support of Public Credit. And you may reſt aſſured that no Œconomy will be wanting to render them effectual for the Purpoſes for which they were granted.

My Lords and Gentlemen,

The preſent general Diſpoſition of all the Powers of Europe ſeems to indicate a Continuance of Peace—and it is My earneſt Deſire to preſerve the general Tranquillity by fulfilling on My Part all the Engagements I am under by Treaties : And on this Foundation I may reaſonably hope and expect the ſame ſtrict Performance of thoſe Engagements which other Powers are under to My Crown.

The many Regulations which you have made for extending and promoting the Trade and Manufactures of Great Britain, and for ſettling the mutual Intercourſe of My Kingdoms and Plantations in ſuch a Manner as to provide for the Improvement of the Colonies on a Plan of due Subordination to the commercial Intereſts of the Mother Country, are the ſtrongeſt Proofs of your equitable and comprehenſive Regard to the Welfare of all My Dominions—An Object truly worthy of a Britiſh Parliament.

It ſhall be My Endeavour that ſuch Care be taken as may tend to ſecure and improve the Advantages that may be expected from ſuch wiſe and ſalutary Proviſion.

I have nothing further to recommend to you than that you will exert your beſt Endeavours in your reſpective Counties to inforce the Execution of the Laws, and to promote good Manners and good Order among My People, whoſe true and laſting Happineſs ſhall be My conſtant Care, and upon whoſe Affection I ſhall always firmly rely.

The Parliament was prorogued to the 12th July.

LONDON,

June 19 Died, Lord Smitherland, at Bath, of a putrid Fever, — one of the 16 Peers of Scotland.

Yeſterday three Ships arrived from the Eaſt-Indies, by them it appears that Lord Clive hath gained great Advantages for the Company, beſides eſtabliſhing a perfect Peace.

June 24 Yeſterday arrived a Mail from New York, brought by the Duke of Cumberland Packet, Capt. Goodridge.

The Prints brought by the Liſbon Veſſel are not regular in their Dates, there being none between the 6th and 19th June.

The Holy Oak, Marſhall, of Piſcataqua, which has been expected here, remained at Deal, June 5.

Admiral Durell, in his Majeſty's Ship Launceſton, bound for Halifax, was at Plymouth 17th June.

NEW YORK, AUGUST 21.

We hear from Dutcheſs County, that Penderghaſt, has been condemned for HIGH-TREASON, and was to ſuffer DEATH, in ſix Weeks. — The uſual ſevere Sentence for Treaſon was pronounced on him.

Arrived his Majeſty's Ship Coventry, from Virginia.

We hear a Veſſel is arrived at Philadelphia which left England in Company with the Hope, Capt. Davis, of this Port, who may be hourly expected, as alſo the Packet.

A Number of the Inhabitants of New-York, who were preſent at the Fray between a Party of Soldiers and ſome of the People of the Town, on the 11th *Inſt. have given their Depoſitions, the following is the moſt circumſtantial, viz.*

New-York, ſſ THEOPHILUS HARDENBROOK, of the ſaid City, Houſe Carpenter, of full Age, being duly ſworn, depoſeth and ſaith, That Yeſterday Afternoon, about 3 o'Clock, being in the Common with ſundry others, in order to erect a Poſt that had been taken down the Night before : that during their being there, ſome Perſon appeared in the Crowd in the Dreſs of a Drummer; that upon his coming up to them, ſeveral Words paſſed : that the firſt Expreſſion he underſtood from the ſaid Drummer was, do you reſent it, or Words to that Effect; that one Berrien, replied, I do reſent it; that thereupon the ſaid Drummer drew his Weapon, when ſome Perſons who ſtood by, took hold of him and ſhoved him from the Crowd, ſome of which ſaid, carry him to the Mayor, and others ſaid let him go ; that accordingly they let him go ; that ſoon after a Number of Soldiers appeared turning the Corner of John Harris's, which he, the Deponent thought came from the Barracks, that upon their coming up to the Crowd, of which he the Deponent was one, the ſaid Soldiers being about 50 in Number, with their Bayonets in their Hands, ſome drawn, and others drew them as they came up ; that as ſoon as they came up to the Deponent and others, they, the Soldiers, fell foul of them by cutting and ſlaſhing every one that fell in their Way ; and thoſe with him were obliged to retire for Safety ; that the ſaid Soldiers purſued them as far as Chaple Street ; that ſeveral Perſons were cut and wounded by the ſaid Soldiers, particularly Captain Sears, and John Berrien, and further ſaith not.

THEOPHILUS HARDENBROOK.

Sworn Auguſt 12th, 1766.
before me JOHN CRUGER.

Peter Vandervoort, atteſts that the ſeveral Matters of Fact, above-related, are true.

Theſe Deponents then add the following Paragraphs

Soon after the ſaid Depoſitions were taken, Major *Arthur Brown* of the 28th Regiment, came into Court, and our ſaid Depoſitions, being by the Mayor handed to him, after looking at them for a while, he in a diſdainful Manner threw them on the Table, and ſpoke the Words following, viz.

I will prove every Word of it to be falſe.

As the Law is to determine what Compenſation ſhall be made us for the injurious Treatment we have received, by having a Crime of ſo high a Nature, *as ſwearing to a Falſhood*, charged upon us in open Court, before a numerous Audience, we ſhall let the Matter reſt till a legal Deciſion.

Then cloſes the Depoſitions of Iſaac Sears, John Berrien, Cornelius Berrien, Phillip Will, Ephraim Braſher, Joſeph Dwight, John M'Ginnis, and Alexander M'Kinnis, *to the Truth of the Matters related in* Theophilus Hardenbrook's *Relation.*

We hear that after the Examination of a great Number of Witneſſes, reſpecting the late Diſturbances between ſome of the Citizens, and a Party of Soldiers, the Corporal and Drum Major of the Regiment, who appeared to be the chief Authors of the Diſturbances, were bound over to the Quarter Seſſion, as alſo a Lieutenant. We hear theſe Differences are likely to have an amicable Concluſion ; for that at a Meeting between the Magiſtrates of the City, and the Officers of the Regiment, in the Preſence of the Governor, they declared their Deſire of living in Harmony with the Citizens, and ſaid that upon any Miſbehaviour of the Soldiers, under their Command, they ſhould either be tried by a Court-Martial, or deliver'd up to the civil Authority, as the Magiſtrates ſhould require—They only deſired the Soldiers ſhould not be ill treated or moleſted, which was promiſed on the Part of the Magiſtrates.

The Virginians are in a Ferment occaſioned by Judges admitting Col. Chiſwell to Bail, who was regularly committed for murdering Mr. Robert Routledge, Merchant, in a Tavern ; which Admiſſion " to Bail is very much and very juſtly cenſured by many ; it ſeems to have given univerſal alarm " as being " ſubverſive both of Law and Reaſon." They are alſo diſturbed by a Diſpute " tending to prove the Expediency of ſeparating the Office of Treaſurer from that of the Speaker" of the Houſe of Burgeſſes.

The Reſolutions of the CORSICANS.

IN the Year 1754, the Corſicans publiſhed a long Manifeſto, which begins thus, " The Supreme Magiſtrates of Corſica to all Europe---- " The Genoeſe induſtriouſly ſpread a Report, " that on the Death of our Chief, we ſplit into " two Parties, and muſt neceſſarily exterminate " one another. It is true we could not have re- " ceived a more fatal Blow ; but if our Ceſar has " been aſſaſſinated, we ſhall not want an Anthony " to revenge him ; and perhaps we ſhall find " an Auguſtus to reſtore that Tranquility we ſo " ardently long for. If Princes ſhould take up " Arms and League together to haſten our final " Ruin, we are both determined and ready to op- " poſe Deſpair to Force ; and, however abandon- " ed and overpowered by ſuperior Force, our " martial Courage can never be extinguiſhed ; and " we ſolemnly Swear by the GOD who lives for " ever, that we will ſuffer ourſelves to be all maſ- " ſacred, rather than enter into any Negociation " of Peace with the Republic ; and much leſs " ſubmit to be her Subjects. To avoid therefore " the being all aſſaſſinated, we ſhall fight for " Victory ; and if we fail of Succeſs, conſulting " only our Deſpair, we ſhall voluntarily throw " ourſelves into the Flames, like the unfortunate " Inhabitants of Saguntum, to ſhew that we make " it an inviolable Law faithfully to keep our Pro- " miſes, and preſerve our Freedom.

" Reſolved, Determined and Done, with an " unanimous Voice and Conſent, at an Aſ- " ſembly held for that Purpoſe, in our City " of Corte, January 27, 1754."

THE Debtors to the Inſurance Office kept by EZEKIEL PRICE in *Boſton*, are *once more* notified to pay their reſpective Balances, which were due the laſt Day of *October* laſt. The ſaid PRICE having received poſitive Orders from the Underwriters to ſue at the next Court for the ſame.

Publiſhed for the general Benefit of GREAT BRITAIN and the NORTH AMERICAN COLONIES.

By the Earl of Halifax Packet, Captain Bolderson, arrived at New-York from Falmouth; and by the Capts. Sparks and Ritchie arrived at Philadelphia from London, we have the following Advices.

LEGHORN, May 15.

ACCORDING to advice from the *Island of Corsica, the malecontents after several conferences held at Corte on the 1st instant, declared and installed Pascal Paoli, Doge, Captain General, and Admiral of the Republick. They have agreed to a form of government, by which it is settled that the dignity of the Doge shall continue for life: and that he shall be assisted by twelve Senators, who shall be changed every year.*

Paris, May 30. *The following are the circumstances of a revolution which happened the 22d of May, 1765, in the City of Quito, the capital of the government of Peru.*

A lady wrote that day a billet to Don Juan Diare Henexa director of the Custom-House newly established, advising him to run away immediately, if he would avoid a cruel death. Henexa took the advice, and with the Auditor and the President of the Royal Court, flew for refuge into the convent of St. Dominique; which they did just in time; for that same night a numerous body of people assembled and set fire to the Custom House, thinking the director was still there. Threescore men perished in the tumult, and the fire consumed, among other things, 14,000 double Spanish pistoles in Specie. There were insurrections in every quarter of the city; and what is very astonishing, and seems almost incredible, is, that all the inhabitants of that vast country, composed of 2800 cities, towns, and villages, hung out the standard of rebellion on the same day, and at the same hour.

The Bishop of Quito, seeing with horror a general and premeditated rebellion, proposed a capitulation, which they would not accept but on the following conditions:

I. That all the European foreigners should be obliged to leave the city in eight days.

II. That the artillery, ammunition, and arms, which were in the King's magazines, should be delivered to the rebels without delay.

III. That an exemption from all kinds of taxes or tributes should be made the fundamental law.

IV. That all the slaves should be made free by a general indulto. And,

V. That the criminals, confined in the prisons, should be set at liberty.

In consequence of the first article, all the foreigners, who were in Quito, quitted the city, disguising themselves like Priests and Monks, and leaving their effects behind them.

It is added, that the conspirators, to shake off the Spanish yoke entirely, insisted on electing a King in the person of the Count d' Herba Florida, Viceroy, who notwithstanding his protestations, 'of chusing 'rather to die than to take a Crown from his lawful 'Sovereign', was forced, with a knife at his throat, to let them proclaim him King of Quito.

The Bishop of Quito having attempted to escape, was closely confined.

This was brought to the Viceroy of Santa-Fe, by a courier dispatched express from Santa-Martha, the 3d of October 1765. And advice has since been received, that the Viceroy of Santa-Fe, finding himself not in safety, at first retired into a convent, and afterwards made off towards Houda, having abandoned all the affairs of his government.

LONDON,

June 3. It is said John Wilkes, Esq; set out on Saturday last for Paris.

June 5. Before a great man lately resigned, it is said he acknowledged his readiness on all occasions to serve the public, and the best of princes; but greatly lamented the want of the assistance in the administration of that *only Man*, who was capable of bringing the nation into its former vigor and strength; and concluded, that if *he* came in, he himself would chearfully serve under him.

It is said that the Right Hon. the Earl of Dartmouth will shortly be appointed Secretary of State for his Majesty's colonies and plantations in America.

June 9. We hear the court of Madrid greatly disapprove of the behaviour of their subjects in the West-Indies, in the late captures of English vessels by Spanish guarda costas; and that satisfaction has been promised to be made.

June 10. A morning paper says, that Mr. P---n being follicited to take some part of the affairs of the helm upon him by a certain great man, who has an intention to resign, made this reply,---My Lord, these legs that I at present make shift to stand on, and the constitution of my poor country, labour under the same infirmity, for they are both very unsound; it will be work enough for me in future to keep these in good plight; let statues on firmer pedestals administer physic to the other.

Private letters from Madrid mention, that several noblemen had received orders to retire to their estates, on being suspected by the court in spiriting up the late dangerous insurrections in the capital of the kingdom.

Some accounts from Spain inform, that fresh troubles had broke out in the province of Estremadura.

It is said, that the reason of the Earl of Rochfort's preparing to quit Madrid, is that he does not think himself quite safe there, in the present unsettled state of that kingdom.

This Morning the Right Hon. the Earl of Rochfort arrived in town from Dover.

It is said that there will, by the time of Captain Palliser's arrival at Newfoundland, be 20 English men of war and armed tenders upon the coast.

June 11. On monday last, between two and three in the afternoon, the following unhappy accident happened to his Royal Highness Prince Henry Frederick, youngest brother to his Majesty, just after the races were over at Ascot Heath. Prince Henry mounting his horse with his brother the Duke of York, (who was likewise present at these races) so soon as the last heat was over, and they riding with some noblemen along the course, his Royal Highness Prince Henry set his horse on a gallop; but not perceiving a chain, that was placed across one part of the said course, to prevent people riding round, the horse ran with so much velocity against the chain, that it was broke down, and the horse falling, threw his Highness over his head upon the ground, where he lay near twenty minutes speechless. There being no surgeon present, a barber bled his Highness; soon after which he vomited much blood; and a carriage being provided, his Highness was, as soon as possible, put therein, and carried, in a very weak condition, to the Duke's lodge in Windsor Park.

June 12. A report prevailed yesterday upon 'Change, that an account was just received of some fresh insurrections in Spain, and that a great Personage, thinking his person in danger, had retired from the kingdom til tranquility shall be restored.

It is now said, that no British Ambassador is to go to Madrid, till the internal troubles of that kingdom are entirely appeased.

June 14. When the Hon. House of Commons waited on his Majesty with their address of thanks, for communicating to them the intended marriage of his sister Princess Caroline Matilda with the King of Denmark; his Majesty was pleased to give them the following answer:

"Gentlemen, I have great satisfaction in receiving this affectionate and dutiful address, and return my thanks to the House of Commons, for this further instance of their regard for Me and My family."

June 16. Lerters from Senegal mention, that several of the Indian Princes and Chiefs, on receiving information of Col. O'Harra's arrival, waited on and congratulated him, upon peace being established with the nation, and every thing being then in a state of perfect tranquility.

June 19. According to letters from Leghorn, Count de Marbeuf had published an ordinance, prohibiting the inhabitants of the isle of Corsica from carrying any other flag at sea than that of the Republic of Genoa, on pain of seizure and confiscation. And some advices from the same place inform, that some foreign vessels had been seized at Corsica, by order of the French commandant, for supplying the Malecontents with ordnance and naval stores.

Some advices from Corsica mention, that General Paoli, with the consent of his council, is going immediately to augment his troops with 4000 men

From the Leyden Gazette. London, June 10.

The portion of the Princess Caroline-Matilda, betrothed to the King of Denmark, will be paid out of the ordinary revenues of the Crown. 'Tis said that it will be 100,000 sterling; that the King is authorised to advance this sum; and that the parliament will reimburse it at the opening of the next session.---As to the establishment for the Dukes of York and Gloucester, and Prince Henry Frederick, they will likewise be settled in the approaching session of parliament. The 45,000 l. sterling which the late Duke of Cumberland enjoyed, will be divided between their Royal Highnesses; and the two eldest will have, one a considerable employment in the marine, and the other an eminent post in the army; so that the public will sustain no additional expence in this article; but there is a talk of augmenting next year a million sterling, the annual sum of 800,000l. destined for the support of the Royal Family.

We are informed, by letters from the Hague last post, that they had begun to make preparations for the journey and voyage of the Stadtholder to the court of Great-Britain; and that the same would take place in August next.

The report of the massacre of the Spaniards in Mexico seems to gain credit; and it is confidently said, that the insurrections in Spain are of a more important nature than has yet appear'd from any of the public accounts.

LONDON, June 21.

It is now said, that the last hand has lately been put to a very advantageous treaty of commerce, which for some time past has been negociating between Great-Britain and the Emperor of Morocco.

The report of the day is, that there will be a great change in the ministry in a very short time.

The regiment of foot, under the command of the honourable General Kepple, marched on Tuesday from Salisbury to Portsmouth, where they are to embark for America.

Yesterday morning two companies of matrosses embarked on board the transport ships at Woolwich, to proceed round to Portsmouth, where they are to be joined by the rest of the troops going to America.

The Irish populace are all in a flame about the rejection of the bill, lately sent over to obtain the establishment of septennial parliaments.

June 23. Private letters from Stockholm mention, that the Algerines have already broke the peace with the Venetians, by the capture of a rich merchant-ship from Archipelago.

A letter from Madrid has these passages: "The commotions which we flattered ourselves had been suppressed by the flight of the Marquis de Squilace, are now blazing out with such additional violence as threaten, in a very serious manner, the total destruction of the kingdom. A number of our principal families talk of retiring, till they see the issue of these affairs, and several have already actually set out for England. From America we have received advices, that every thing is in the utmost disorder, so that the affairs of the Spanish monarchy seem in every quarter to be extremely critical. The thinking part of the people are of opinion, that the Jesuits are at the bottom of all these disturbances. The English ambassador's return to his own court, in the midst of all our confusions, occasions a variety of speculations."

It is said commissions have been received here, within these ten days, to the amount of upwards of 140,000 l. for goods, &c. proper for the American trade.

In regard to the various reports circulated in the papers of an approaching coalition, and change in the ministry, the real truth (we are informed) is, there is a party for that purpose forming under Mr. Pitt, and Lord Temple, in which George Grenville, Esq; is destined to a very respectable post.

It is said, that as soon as an alteration in the ministry takes place, the Marquis of Granby is to be appointed to the same honours in the army which the Duke of Cumberland held, immediately previous to his retirement after the convention of Closterseven.

They write from Liverpool, that the eldest son of the King of Brack, a powerful prince in the neighbourhood of Senegal, was to be sent to England this summer for his education.

His Royal Highness the Duke of York will we hear, be appointed Lord High Admiral, before the King of Denmark's marraige takes place with his illustrious sister.

It is reported that the King of Prussia has actually made a formal demand of some part of our conquests in America, agreeable to what we mentioned in our paper a fortnight past.

Private letters from Madrid mention, that the Jesuits were making use of all their interest at court to exculapte the Society from many ill-grounded accusations, relative to having been abettors of commotions in New Spain

It is said, that a board of Admiralty will continue to exercise the same powers as at present, after his Royal Highness the Duke of York is appointed Lord High Admiral of England, under the denomination of a council to his Royal Highness.

It is said that the Great Commoner has lately made the following patriotic propofal: That, upon condition he was permitted to act upon his own Principles for the publick good, without any one interfering, he would get four or five noblemen and gentlemen, whose patriotism is as unquestionable as his own, who, together with himself, would with the greatest alacrity, serve their country without fee or reward; and that they would not accept or desire the smallest share of the emoluments belonging to the offices they would fill in the administration, but that the same should be entirely appropriated to the use of the publick.

June 24. Letters from Italy advice, that the city of St. Rome had sent a memorial to all the Powers who guaranted the treaty of Aix-la-Chapelle, complaining of infractions and innovations made by the Republic of Genoa on that city and territory, since the conclusion of the said treaty in the year 1758.

According to letters from Madrid, orders had been sent from Court, to stop the marching of the French troops nearer to the capital, from which it was believed tranquility was upon the point of being once more established.

Pitt who has the Gout

CHARLESTOWN, (South-Carolina,) Aug. 12.

The Spaniards at New-Orleans, seem to believe, that that Colony will soon be annexed to the British Dominions.

Friday last Benjamin Barrons, Esq; Deputy-Post-Master-General of the Southern District of North-America, sailed from hence in the Duncandon Packet-Boat, Capt. Charles Edwards for Falmouth.

PHILADELPHIA, August 21.

Saturday night last, about ten o'clock, Mr. Joseph Penrose, of this city, was stopped on the road leading to the lower ferry on Schuylkill, as he was going from town, by a man with a gun, who robb'd him of one dollar, & an old shilling bill which was in his pocket book; he demanded his watch, but Mr. Penrose had none. The pocket book with all the papers, & his horse, were found at the hospital fence, as the fellow had promised Mr. Penrose.

The same night an attempt was made on the house of Messrs. Stewart, Duncan, and Company, but being over heard in the yard by a person in the next house, who called out to them, the robbers made off as fast as they could.

Tuesday morning last, an information being lodged against a person of the name of Scantlin, for having abused a boy on the commons; and being seen with a gun, gave room for suspicion, whereupon a person was dispatched, who seized him in bed (tho' then ten o'clock) at a house near the hospital, and he was committed to goal. Mr. Gray's watch was found in his pocket. The woman where he was taken, says he gave her a shilling bill last Sunday morning to buy rum, and a dollar to buy provisions. He has since his confinement, confessed both the robberies, but says he has no accomplices.

NEW-YORK, *August 25.*

Last Week a Soldier belonging to the 28th Regiment, was sentenced by a Court-Martial, to, and did receive 500 Lashes for assaulting a Gentleman in the Street, Wednesday Evening last, which is a convincing Proof that the Military are determined to give ample Satisfaction to the Inhabitants for any Insult that may be offered them by the Soldiers, on proper Application to the Commanders of any of the Regiments. It were to be wished, that when the Soldiers go the Rounds, they take up no more of the Street than they really have Occasion for, as many of them are very narrow, which makes it difficult for People to pass, especially with Horses or Carriages.

His Majesty's Ship the Coventry, and her tender, arrived here from a Cruize since our last.

Captain Bolderson, about a Month since, in Lat. 37, 38. Long. 37. spoke with Captain Mackey, in a Sloop belonging to Boston from North-Carolina, bound for Madeira, 25 Days out, all well.

With Captain Bolderson came Passenger Brigadier General Carlton, Lieutenant Governor of Canada.

The Duke of Cumberland Packet, Capt. Goodridge, soon after he left this Coast in May last, sprung a Leak, and bore away for the West-Indies, but having the good luck to fall in with a Sloop from New-England bound to the Southward, Capt. Goodridge, to serve the Crown, engaged with the Capt. for a certain Sum of Money, as well as to take the Cargo at Market Price, to see him safe to Falmouth, where they both arrived safe after a Passage of 40 Days from this Port.

NEWPORT, August 25.

At five Minutes after 1 o'Clock, this Morning, a Shock of an EARTHQUAKE, preceded by a Noise similar, to that produced by the Rapid Course of a Number of Carriages at a Distance, was felt in this Town, and Parts adjacent. The Shock and Noise were considerable, and continued about twenty Seconds.
